spillstationaustralia

Established in 1983, Spill Station Australia is an Australian owned company that is dedicated to the manufacture and supply of superior workplace safety and environment protection systems.

Our range of products and services has grown over these years to address the constantly evolving workplace safety and environment protection issues facing the Australian workplace.

Services such as **obligation-free spill risk assessments**, **spill response training** and **Spill Kit maintenance agreements** are also available to ensure rapid and effective spill response at all time.

Spill Station Australia has been at the forefront of assisting Government and Industry in solving environmental compliance issues for over 25 years and we are proud of the contributions we have made towards keeping Australia Beautiful.

We believe that this dedication to the highest quality workplace safety and environment protection products and services will ensure your best environmental outcomes.

ROMOLD LTD®

HUGHES

 WWW.SAFETYSHOWERS.COM.AU

It is now even easier to find the Spill Kit that is right for your site

Step 1. Find the types of liquids you have in the left hand column

Step 2. Find the size of your container or potential spill along the top row

Step 3. Find where the type of liquid and size of potential spill intersect.

Step 4. Match the colour code to the contents page and match the code to your kit

Sukerup General Purpose Absorbents

Because spills can happen anywhere, Spill Station Australia offer two types of General Purpose Absorbent so the absorbent you get is right for the job. Both are 100% natural, highly absorbent and free of harmful chemical residues.

SPILL KIT COLOUR CODE	COOLANT / GENERAL LIQUIDS	HERBICIDE / PESTICIDE	OIL / FUEL / SOLVENT	ACIDS / CAUSTICS
GENERAL PURPOSE	✓	✓	✓	X

Sukerup Organic General Purpose Absorbent

- Contains no harmful dust to ensure a safe spill cleanup.
- Reduce clean up time and disposal costs by more than half.
- One 50L bag absorbs as much as 4 x 20kg bags of "kitty litter".
- A 50 litre bag will absorb up to 60 litres of spill.
- Made from an annually renewable resource.
- No chemical residues.
- EPA approved.
- Fast acting.

0A50L 50L Bag Sukerup Organic Absorbent

0A15L 15L Bag Sukerup Organic Absorbent

General Purpose Spill Containment Booms

SAU105 1.5m x 100mm GP Containment Boom

MLB103 3.0m x 100mm GP Containment Boom

PERFECT FOR HIGH WIND AREAS

Sukerup Mineral Sponge Granular Absorbent

- Will not break down and become slippery when wet.
- Available in workplace safe 10kg.
- Safer than clay based granules.
- Liquids stay "locked inside".
- Absorbs up to 50% more than "kitty litter"
- Meets EPA requirements for solid waste disposal

MS10 10Kg Bag Super Absorbent Mineral Sponge

General Purpose Spill Response Kits

A free of charge Spill Kit training pack including demonstration DVD and Powerpoint presentation is available upon request with Spill Kit purchase.

Spill Response Kit Options

**CAUTION
SPILL AREA**

Isolate the contaminated area effectively with hi-vis barrier tape. Item Code X-BTAP.

A wide range of bin colours and sizes are available. See page 39 for more details.

Tamper evident seals can be fitted to your new Spill Kit at no additional charge.

Collapsible hi-vis traffic cones are available to cordon off the effected area day and night. See page 40 for more information.

**SPILL
STATION**

SPILL RESPONSE KIT

Make your spill kit easy to find with our range of signs. See page 41.

Instantly repair punctured and leaking drums with Plugitupn tank and drum repair putty. See page 40 for more details.

Tool racks for our spark-proof shovels and brooms can be fitted to your spill kit at no additional cost.

See page 43 for more information on our range of spill cleanup equipment such as these spark-proof shovels.

FRONT

BACK

When responding to spills, personal protection is priority number 1. Stock your PPE/MSDS pouch with the PPE you need to stay safe. See page 43 for details.

Hazchem Absorbents

Spill Station Hazchem Absorbents are made from polypropylene microfibres and have excellent chemical resistance and outstanding absorbent capabilities. This absorbent is suitable to use with most liquids including acids and caustics.

SPILL KIT COLOUR CODE	GENERAL WORKSHOP LIQUIDS	HERBICIDE / PESTICIDE	OIL / FUEL / SOLVENT	ACIDS / CAUSTICS
HAZCHEM	✓	✓	✓	✓

DOUBLE WEIGHT HAZCHEM ABSORBENT PADS

Turn liquid hazards into easily managed solids. Each pad can absorb up to 1.8 litres.

ITEM CODE	DESCRIPTION	SIZE	QTY
PAD305/10	Hazchem Absorbent Pads	480x430mm	10

Compact Spill Kits

Mid-Size Spill Kits

Over 20 years ago, the Australian Defence Forces approached Spill Station to design Spill Kits to meet the challenging environments in which they operate.

If your needs are not met by our standard range, we can customise our Spill Kits to address your requirements.

Variations include:

- Size or type of Spill Kit container
- House branding
- Specific spill response capacity
- Spill Kit components to your specifications
- Spill Kits to suit your workplace environment

Spill Response Trailers

Because the needs of our spill trailer customers and the environments they operate in are so diverse, each spill trailer is customised to provide the best outcome.

Our customers include:

- Mine sites
- Power generators
- Transport companies
- Local Government

Quickbund Portable Bunding

The Australian made Quickbund Portable Bunding System provides a safe and secure area for dealing with a wide range of liquids including acids, caustics, oils & fuels.

Manufactured from heavy duty XR-5, the high-frequency welded seams ensure no leaking and provide maximum strength.

The fold down walls allow for vehicle and forklift access.

The Quickbund can be erected in seconds without the need for tools. Simply position and unfold.

The Quickbund can be built to your meet your specific requirements.

Because it is so lightweight and portable, the Quickbund is ideal for all field applications including drill rigs, generators, refuelling & transformers.

The Quickbund can be fitted with a portable oil/water filter for outdoor use.

TSSQB10	4.1x4.1x0.3m	5,000L	700x700x150mm	32kg

TSSPB4L 4-Drum Spill Pallet

- Designed for safe and compliant storage of 4x205L drums.
- Made from 100% corrosion free polyethylene.
- Two-way forklift access for loaded Spill Pallets.
- EPA compliant sumps in all Spill Pallets.
- Rain covers and ezy-load ramps are also available.

Length	Width	Height	Weight	Sump	Max Load
1280mm	1280mm	275mm	35kg	230 Litre	1250kg

TSSBP4 4-Drum XL Spill Pallet

- Huge 410 litre sump for storage of containers up to 372L.
- Solid polyethylene construction for heavy loads.
- Suitable for up to 4 x 205L drums.
- Drain plugs come standard with all spill pallets
- Forkliftable when fully loaded

Length	Width	Height	Weight	Sump	Max Load
1310mm	1310mm	370mm	44kg	410 Litre	1250kg

TSSBP3 3-Drum Spill Pallet

- Designed for safe and compliant storage of 3x205L drums.
- Seamless construction eliminates leaks.
- Meets EPA sump requirements.
- Broadband chemical resistance including acids & caustics.

Length	Width	Height	Weight	Sump	Max Load
1785mm	780mm	240mm	35kg	228 Litre	900kg

TSSPB2 2-Drum Spill Pallet

- Designed for safe and compliant storage of 2x205L drums.
- Made from 100% corrosion free seamless polyethylene.
- Two-way forklift access for loaded Spill Pallets.
- EPA compliant sumps in all Spill Pallets.
- Rain covers and ezy-load ramps are also available.

Length	Width	Height	Weight	Sump	Max Load
1220mm	820mm	330mm	26kg	240 Litre	650kg

Spill Containment Pallets

TSSBP1 1-Drum Spill Pallet

- Designed for storage of 1 x 205L drum.
- Small footprint for compliant storage in small areas.
- Removable grate makes decontamination easy
- Drainplugs are a standard feature.
- Polyethylene construction for extra durability.

Length	Width	Height	Weight	Sump	Max Load
900mm	700mm	525mm	22kg	225 Litre	300kg

TSSBP4RT 4-Drum Roll-Top Spill Pallet

- Protect your load from weather and theft.
- Key lockable ezy-lift Roll Top Cover large 410 litre sump
- suitable for holding 4 x 205L (44gal) drums
- Can be moved with a forklift when loaded
- removable non-slip grates
- raised lip helps to keep your load secure fitted with threaded drain plug

Length	Width	Height	Weight	Sump	Max Load
1470mm	1420mm	2070mm	115kg	410 Litre	1450kg

TSSCP2 Hardcover 2-Drum Spill Pallet

- Lockable handle and side latches for secure storage.
- Gas struts for easy lowering and opening of the lid.
- Move with pallet jack or forklift when fully loaded.
- EPA compliant sumps in all Spill Pallets.
- Seamless polyethylene construction for extra strength.
- Excellent broadband chemical resistance.

Length	Width	Height	Weight	Sump	Max Load
1630mm	940mm	1420mm	95kg	260 Litre	600kg

Easy forklift access to stored pallets

TSSRB1 Pallet Racking Bund

- Turn standard pallet racking into banded racking.
 - Prevent contamination of goods stored below.
 - Drain plug fitted for easy removal of spilled liquids.
 - Utilises the "dead space" between the beams.
 - Designed to provide easy access to pallets.
 - 100% polyethylene for broadband chemical resistance.
- Racking not included

Length	Width	Height	Weight	Sump	Max Load
1280mm	1280mm	245mm	25kg	410 Litre	1450kg

Spill Pallet Covers

- Protect the sump and the load from rainwater.
- Available for all sizes of Spill Pallets
- Welded seams and heavy-duty PVC prevents leakage.
- Shockcord elastic keeps the cover in place
- Fast and easy to remove and replace the cover.

Item Code	Used With Item
TSSBP4LC	TSSBP4L - 4-Drum Spill Pallet
TSSBP4SC	TSSBF4S - 4-Drum Inline Spill Deck
TSSBP3C	TSSBP3 - 3-Drum Spill Pallet
TSSBP2C	TSSBP3 - 3-Drum Spill Pallet
TSSBP1C	TSSBP1 - 1-Drum Spill Pallet

Spill Pallet Ramps

These spill pallet ramps are made from tough polyethylene and are suitable to use with 2-Drum, 4-Drum and Roll Top Spill Pallets.

Item Code	Length	Width	Height	Weight	Max Load
TSSBP2R	1740mm	1000mm	330mm	36kg	400kg
TSSBP4R	1740mm	1000mm	240mm	33kg	400kg
TSSBPRTTR	1740mm	1000mm	370mm	38kg	400kg

IBC Spill Containment Units

TSSBB1 Single IBC Spill Containment Unit With Grate

- Designed to hold 1 x IBC (1000L) tank.
 - Huge 1100L sump complies with EPA requirements.
 - Drain plugs fitted for easy removal of spilled liquids.
 - Seamless design for maximum sump security.
 - Tough polyethylene construction for maximum durability.
 - Dispensing wells, IBC funnels and covers also available.
- Grate on top allows for smaller drum & can be stored*

Length	Width	Height	Weight	Sump	Max Load
1760mm	1350mm	710mm	107kg	1100 Litre	1500kg

TSSBB2 Dual IBC Spill Containment Unit With Grate

- Designed for 2 x IBC (1000L) tank or 8 x 250L drums.
- Huge 1140L sump exceeds EPA requirements.
- Drain plugs and removable grates for easy clean up.
- Robust & chemically resistant polyethylene construction.
- Dispensing wells, IBC funnels and covers also available.

Length	Width	Height	Weight	Sump	Max Load
2560mm	1350mm	510mm	136kg	1140 Litre	2500kg

Dispensing Wells For IBC Storage Units

- Attaches securely to any position around the bund.
- Catches drips & directs any overflow back into the sump.
- Big enough to hold 25 litre drums for safe decanting.
- Ideally suited for storing connected hoses when not in use.

Item Code	Length	Width	Height	Sump	Use With
TSSBB1T	550mm	545mm	855mm	86 Litre	TSSBB1
TSSBB2T	530mm	510mm	560mm	86 Litre	TSSBB2
TSSBB4T	530mm	520mm	540mm	86 Litre	TSSBB4

IBC Funnel

- Large diameter for easy decanting into IBCs.
- Avoid spills and keep the area free of slip hazards.
- Available with or without hinged lid.
- Tough polyethylene construction for maximum durability.

Item Code	Description	Diameter	Weight
TSSDF200	IBC Funnel With Lid	640mm	5kg
TSSDF200-Z	IBC Funnel Without Lid	640mm	4kg

Single IBC Spill Containment Unit - No Grate

- Cost effective storage for single IBC (1000L tank).
- Over 110% of tank capacity available in the sump.
- Fitted with drain plugs or easy decontamination..
- Made from 100% virgin polyethylene resin.
- Can also be loaded with standard wooden pallets.

Item Code	Length	Width	Height	Weight	Sump	Max Load
TSSBB3	1590mm	1455mm	715mm	80kg	1125 Lt	1500kg

Dual IBC Spill Containment Unit - No Grate

- Relocatable storage solution for 2 x IBC or 8 x 205L drums.
- Mould design provides high strength to weight ratio.
- Virgin polyethylene for maximum chemical resistance.
- Fitted with drain plug for easy recovery of spilled liquids.
- Weather-proof covers & overflow trays also available.
- Huge 1150L sump meets storage requirements.

Item Code	Length	Width	Height	Weight	Sump	Max Load
TSSBB4	2340mm	1360mm	510mm	85kg	1150 Lt	2800kg

IBC Spill Containment Unit Cover

- Designed for use with TSSBB1 & TSSBB2 Spill Pallets.
- Protect the load and sump from rainwater.
- Safely store IBCs in outdoor locations.
- Elastic shock cord keeps the cover in place.
- Made from heavy-duty coated PVC.

Item Code	Description
TSSBB1C	Single IBC Spill Containment Unit Cover
TSSBB2C	Dual IBC Spill Containment Unit Cover

IBC Splatter Guard

- Designed to cover a standard IBC (1000L) tank.
- Directs splatter and trajectory spill back to the sump.
- Clear front in order to easily identify the IBC contents.
- Welded seams to prevent leakage.
- Rope ties keep the cover in place in all conditions.

Item Code	Description
TSSIBCPCCF	Clear Front IBC Tank Splatter Guard

Spill Decks

The Spill Deck is built tough and comes in three sizes. These Spill Decks can be configured to create non-slip bunded liquid handling workstations and storage areas to fit your working environment.

Two sizes of ramps are available to make loading the Spill Deck with pallet jacks and hand trolleys easy.

TSSBF2 2-Drum Spill Deck

- Ideal for small decanting or waste oil collection point.
- Low profile for ease of loading.
- Can be fitted with drain plugs if required.
- Seamless design for maximum sump security.
- Tough polyethylene construction for maximum durability.
- Removable non-slip grates makes cleaning easy.

Length	Width	Height	Weight	Sump	Max Load
1260mm	860mm	150mm	20kg	150 Litre	1000kg

TSSBF4 4-Drum Square Spill Deck

- Designed to hold 4 x 205 litre drums.
- Huge 300L sump complies with EPA requirements.
- Drain plugs available for easy removal of spilled liquids.
- Seamless design for maximum sump security.

Length	Width	Height	Weight	Sump	Max Load
1660mm	1260mm	150mm	40kg	300 Litre	2000kg

TSSBF4S 4-Drum In-line Spill Deck

- Designed to hold 4 x 205 litre drums.
- Low profile for ease of loading.
- Can be fitted with drain plugs if required.
- Seamless design for maximum sump security.
- Corrosion-free polyethylene construction.

Length	Width	Height	Weight	Sump	Max Load
2610mm	860mm	150mm	48kg	300 Litre	2000kg

TSSBF1 1-Drum Floorbund

- Ideal for small decanting or liquid collection area.
- Low profile for ease of loading.
- Can hold up to 10 x 25 litre containers.
- Seamless design for maximum sump security.
- Polyethylene construction for maximum durability.

Length	Width	Height	Weight	Sump	Max Load
920mm	720mm	175mm	15kg	100 Litre	300kg

TSSBFR Compact Spill Deck Ramp

- Ideal for confined areas requiring ramp access.
- Ramp attaches to spill deck for extra stability.
- Moulded grips reduce slippage.
- Tough single piece moulded polyethylene.
- Not suitable for 1-Drum Floorbund.

Length	Width	Height	Weight	Max Load
650mm	800mm	165mm	9kg	300kg

TSSBFR2 Large Spill Deck Ramp

- Gentle incline for heavier loads.
- Suitable for hand trolley and pallet jack.
- Raised moulded grips to reduce slippage.
- Seamless design for maximum sump security.
- Polyethylene construction for maximum strength.

Length	Width	Height	Weight	Max Load
1740mm	1000mm	160mm	28kg	900kg

Flammable Liquid Storage Cabinets

The Spill Station Australia range of Flammable Goods Cabinets are Australian Made and built to comply with the Australian Standard AS1940-2004 for the storage of flammable and combustible liquids.

BCFLS60L

BCFLS160L

BCFLS100L

BCFLS250LEC

BCFLS250

BCFLS250E

BCFLS250LHD

- All cabinets comply with AS1940-2004.
- Designed for use with all Class 3 liquids.
- 3-points self latching facility.
- Ventilation ports with built-in flame arrestors.
- Cabinets come with all required signage attached.
- Full instructions attached to the inside of the door.
- Continuous piano hinge ensuring smooth door closure.
- Built-in ground connector.
- Baked enamel lead-free finish eliminates corrosion.
- Sequentially closing doors.
- Made from double skin 1.2mm zinc coated steel.

Eye/Facewash Equipment

Covered Eye-Facewash with Intergral Lid

This breakthrough in Emergency Eye/Facewash Units is safer and more effective than other units.

The H-STD45G eyewash ensures that the unit is protected from contaminants at all times. When opened, the flow of flushing water begins immediately.

- Standard Fittings
- Integral pull-down lid to start water flow
- Stainless steel piping
- Aerated diffusers
- Flow regulator
- Self adhesive pictogram sign

Item Code	Description
H-STD45K	Wall Mounted Covered Eye/Facewash
H-STD45GSP	Pedestal Mounted Covered Eye/Facewash
H-EXP45GT	Bench Mounted Covered Eye/Facewash
H-TFC	Optional Foot Control Pedel

Eye-Facewash with Stainless Steel Bowl

This fully compliant eye/facewash with stainless steel bowl is available as a wall mounted or pedestal mounted option.

Item Code	Description
H-STD85G	Wall Mounted Eye/Facewash
H-STD85GSP	Pedestal Mounted Eye/Facewash
H-TFC	Optional Foot Control Pedel

Wall Mounted Sign and Eyebath

Wall Mounted Emergency Eyebath and Safety Sign. The Eyebath attachment is on a flexible hose incorporating a handle, removable Eyebath cup and dust cover.

Item Code	Description
H-STD35G	Wall Mounted Eyebath with sign

Optiflex Hand Held Eye, Face & Body Shower

This hand held eye, face & body shower has a unique lock on valve. The Optiflex100 can be mounted to a wall or safety shower. The Optiflex500 dual cup eyebath comes with wall mounting bracket. Both units are supplied with 1.5m reinforced hose.

Item Code	Description
H-OPTI100	Wall Mounted Single Cup Optiflex
H-OPTI100SM	Shower Mounted Single Cup Optiflex
H-OPTI500	Wall Mounted Dual Cup Optiflex

Self-Contained Safety Shower/Eyewash

Portable Interim Safety Shower & Eyewash

The 114 litre carbon steel cylinder is polypropylene lined to avoid internal corrosion. Painted with acid resistant paint and fitted with 'Emergency Shower' signs. This unit is easily filled by connecting to a mains water supply via a 15 or 20 mm hose pipe and pressurised via a standard Schrader valve. It is moved using the attached stainless steel trolley with pneumatic wheels. This Mobile Emergency Safety Shower is designed as a quick response, first-aid device for use where a plumbed-in unit is not available and must therefore be backed up by a method of further decontamination.

Item Code	Description
H-STD40K	Portable Safety Shower
H-STD45GM	Portable Eye/Face Wash
H-STD40K45G	Portable Safety Shower/Eyewash

Portable Gravity Fed Eyewash

- Provides 15mins of decontaminating flow as specified in AS4775.
- Includes one bottle bacteriostatic additive.
- Wall mounting bracket included with each eyewash.
- Thermal protection jacket available for outdoor use

Item Code	Description
H-P400	Portable Gravity Fed Eyewash
H-P400TJ	Thermal Protection Jacket for H-P400
H-ANTBAC	Bacteriostatic Water Additive

Portable Pressurised Eyewash

These pressurised eyewash units come in 2 sizes, 9 & 45 litres. Both are fitted with a pressure gauge and standard schrader valve. The 9 litre unit can deliver copious amounts of aerated water for 1 1/2 minutes via the attached drench hose. The 45 litre unit can delivery flushing water for 4 minutes via the twin aerated eyewash fountain.

Item Code	Description
H-STD28G	9L Pressurised Interim Eyewash
H-STD58G	45L Pressurised Interim Eyewash

Eyewash Solution Bottles

This sterile, buffered, isotonic solution has a twist off, tamper evident cap and a 4 year shelf life. It is designed to provide a controlled rate of flow. Available in stand alone bottles or wall mounted eyewash station.

Item Code	Description
EWB148	148ml Eyewash Bottle
EWB472	472ml Eyewash Bottle
EWB944	944ml Eyewash Bottle
EWB472WM	Eyewash Station with 2 x 472ml Bottle
EWB944WM	Eyewash Station with 2 x 944ml Bottle

Indoor Emergency Showers/Eyewash

The main thing to know is we stand behind our product. All units in the Hughes Safety Shower range have a 2 year warranty. That is double the warranty of any other shower supplier in Australia.

Valves:

- Virtually unbreakable.
- Purpose built patented design.
- Full bore ball valve.
- PTFE seals.
- Made from fully 316 stainless steel.
- 360° positively engaged spindle.
- Fully enclosed valve stop assembly.
- Glass reinforced nylon lever.

Spray Nozzle:

- Heavy duty glass reinforced moulded nylon construction.
- Cyclonic delivery conical spray profile.
- Complies with ANSI & Australian Standard spray profile requirements even at lower water pressures.
- Unlike common shower roses it will not become blocked by smaller particles.

Piping:

- All pipes are made from semi-polished 304L stainless steel.
- All fittings are made from 316 stainless steel.
- Full 316 stainless steel models are also available.

Construction:

The modular approach to construction provides maximum flexibility. All optional fittings including eyewash, eyewash operation pedal, signage and lighting can be easily retro-fitted to your safety shower if required.

Indoor Emergency Shower/Eyewash Equipment	
Item Code	Description
H-EXP18GS	Stainless Steel Safety Shower
H-EXP18GS85G	Stainless Steel Safety Shower and Eye/Facewash
H-EXP18GS45G	Stainless Steel Safety Shower and covered ABS Eye/Facewash
H-EXP23GSH	Stainless Steel Wall Mounted Safety Shower
H-EXP23GSV	Stainless Steel Ceiling Mounted Safety Shower

Your safety shower may be compliant but is your water temperature?

When the sun heats up shower pipes it can increase water temperature to over 50°C. Using this water to flush skin and eyes damaged by chemical burns can cause considerable damage.

The Self Draining Safety Showers are designed to drain the water out of the shower and eyewash pipes when not in use and prevent scalding from water overheated by exposure to the sun.

The unique conical profile shower nozzle and solid spigot 316 ball valve will ensure years of trouble free use.

This style safety shower is available as a combination shower/eye & face wash as well as a shower with body spray for multi-directional flushing.

Features:

- Full stainless steel pipes & fittings.
- Pipe wall thickness 2.3mm.
- Solid spigot 316 ball valve.
- Conical profile shower nozzle.
- Bottom water inlet.
- Self-draining design.
- Complies with AS4775-2007
- Complies with ANSI Z358.1-2004
- Full 2 year warranty

Options:

- Foot control pedal for eyewash
- Scald protection valve
- Flow switch
- Compliant signage
- Audible/visual alarms
- Lighting
- Anti-slip matting

Outdoor Safety Showers and Eye/Facewash

Item Code	Description
H-EXPSD18GS85G	Outdoor Safety Shower w/ Eye/Facewash
H-EXPSD20GS	Outdoor Safety Shower w/ Bodyspray

Scald Protection Valve

The Scald Protection Valve continually senses water temperature, automatically opens when the water reaches 35°C and bleeds overheated water from safety shower and eyewash supply lines. The valve closes when the water reaches 29.4°C.

Scald protection is provided with minimal water consumption. The unique plug and seat design offers the most reliable, tight shutoff available.

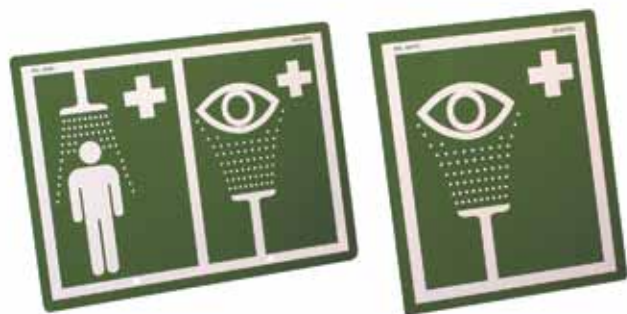

Features:

- Stainless steel body, fittings, spring and plug.
- Long service life & 3 year warranty.
- Narrow temperature band.
- Compact, low mass - Fast response
- Ram-type plug for reliable tight shutoff
- Downstream actuator for greater sensitivity.
- Sensitive to temperature only.
- Unaffected by pressure variations.
- Easy installation with pipe wrench

Scald Protection Valve

Item Code	Description
H-AHATSP	Anti-Scald Valve 35°C-29.4°C

Indoor/Outdoor Safety Shower Optional Extras

Safety Shower & Eyewash Signs

The Australian Standard AS4775 states that correct signage for each safety shower is a requirement of compliance. They are made from stove enamelled aluminium plate and over-lacquered for extra protection. Signs come complete with bracket to attach to the shower

Item Code	Description	Size (mm)
H-EWS	Eyewash Sign Metal Single Sided	300 x 255
H-SSS	Safety Shower Sign Metal Double Sided	300 x 255
H-ESS	Shower/Eyewash Sign Metal Double Sided	300 x 400

Safety Shower Lighting

This safety shower lighting is made from impact resistant poly carbonate and GRP. Twin 18W green fluorescent tubes ensure your safety shower complies A S 4775. Comes complete with mounting pole and bracket. Available for hazardous and non-hazardous environments.

Item Code	Description	Ingress Protection
H-AULIGHT	Safety Shower Light, Twin Tube, Green, 18w	IP66

Optional Shower Rose Designs

In addition to the the Conical Profile shower nozzle that comes standard with all safety showers, these traditional shower roses are also available. These shower rose options are available in stainless steel or high impact ABS capped plastic.

Item Code	Description
H-ABS	Yellow ABS Plastic Shower Rose
H-SSR	Stainless Steel Shower Rose
H-PNR	Red Nylon Plastics Shower Nozzle

Foot Operation Pedal

In addition to the standard hand operation, this foot operation pedal is also available for all plumbed-in eyewash units. It is made of powder coated stainless

Item Code	Description
H-TFC	Foot Operation Pedal

Flow Switch & Alarms

Other options including audible/visual alarms, flow switches and flange connectors are also available. The flow switch can trip a local or remote alarm and ensure the user gets fast first aid attention. Both units are available for hazardous and non-hazardous areas.

Item Code	Description	Ingress Protection
H-FSNH25	Flow Switch, Non Hazardous, 25mm	IP66
H-AUDVIS	Audible/Visual Alarm	IP65

Laboratory Safety Shower & Eyewash Equipment

Floor Mounted Laboratory Emergency Shower with Eye/Facewash

Floor Mounted Laboratory Emergency Shower with Eye/Facewash Fountain has a shower rose (stainless steel as standard fitting) and is pull rod operated. The Eye/Facewash has twin spray aerated nozzles with dust covers and is push plate operated. The water jets lift off the dust covers when operated and the height of the jets is adjustable using an integral flow regulator valve (shown with optional Optiflex). This shower/eyewash combination unit is finished in two-pack green enamel paint.

Standard Features:

- Stainless steel eye/face wash with aerated diffusers, dust covers, flow regulator and push pad.
- Hand operated pull rod shower control.
- Stay-on ball valve.
- Stainless steel shower rose.
- Stainless steel tubulars.

Item Code	Description
H-STD85G	Wall Mounted Stainless Steel Eyewash
H-STD85GP	Pedestal Mounted Stainless Steel Eyewash
H-LAB18GS85G	Safety Shower & Eyewash Combination

Bench Mounted Eye/Facewash

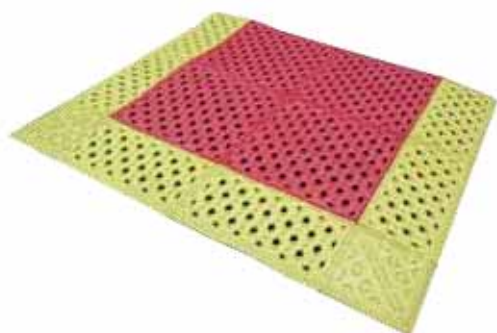

This covered eyewash is made from high impact ABS plastic. When the cover is opened, the flow of water commences immediately. This eyewash incorporates a flow regulator and twin aerated diffusers. Signage is also included.

Item Code	Description
H-STD45GT	Bench Mounted Eye/Facewash

Non-Slip Safety Shower Mat

When floor surfaces, especially in a laboratory, become wet they can also become very slippery. These mats are designed for use under emergency showers or eyewash stations. The mats keep accident victims from slipping and raise them above the overflow area as the hazardous chemicals are washed away. The highly visible yellow borders are 153mm wide with a gradual slope for easy access. Easy to clean. Sweep or dry mop surface. Can be mopped with mild soap or detergent.

Item Code	Description
H-NSM	Non-Slip Safety Shower & Eyewash Mat

Self-Contained Safety Shower/Eyewash

1200L Tank Shower with optional extras

This range of heavy duty tank showers and eyewash units, are ideal for areas where piped water supply is not available or water pressure cannot maintain a compliant flow rate.

The 1200L model provides 15 minutes of flushing water to ensure compliance with the Australian and ANSI standard for safety shower and eyewash equipment.

The 350L model is best suited to areas where piped water is available but pressure is not able to provide the 75 litres per minute required.

Standard features:

- Stainless steel frame and shower rose
- Glass reinforced plastic tank shell
- Insulated food grade plastic water storage tank
- External water level indicator
- External shower test handle
- 3/4 inch female BSB tank fill point
- All tank showers come with signage attached.
- Panic bar operation

Item Code	Description
H-EXPJKS350	350 Litre Emergency Tank Shower
H-EXPJKS1200	1200 Litre Emergency Tank Shower

Tank Shower Optional Extras

Mounted on the inside of the shower frame, the Emergency Eyewash incorporates an integral lid connected to the water valve to automatically operate the unit when the lid is lifted. The lid also ensures that the bowl remains clean and free from contamination at all times.

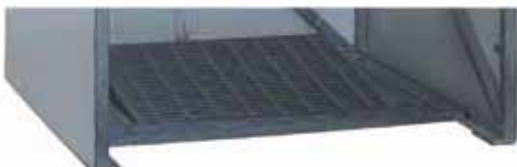

Item Code	Description
H-TSEF1200	Complete Eyewash Unit For Use With Tank Shower

- Integrated stainless steel pump
- Maintains compliant water temp in ambient temperatures to 60°C
- Standard 10A plug
- R134a Refrigerant for durability in high ambient conditions
- Can be mounted to shower equipment or be free standing
- IP rated electrical box
- High and low pressure safety protection
- 316 Stainless steel evaporator
- Suitable for operation in ambient temperatures to 60°C
- Epoxy coated condenser for anti corrosion protection

Item Code	Description
H-TSCU1200	Chiller Unit for 1200L Tank Shower Non Hazardous
H-TSCU1200Z12	Chiller Unit for 1200L Tank Shower Zone 1 & 2 Areas

Tank Shower Optional Extras

Solar Protection Shields

When operating in extreme temperatures, Tank Showers can be fitted with Solar Shields to protect the water in the tank from the effects of heat transfer by conduction, convection and radiation. They also increase chiller efficiency.

Item Code	Description
H-TSS1200	Solar Shield for 1200 Litre Tank Shower

Tank Shower Lighting

Light Boxes enable the safety signs to be back-lit for greater visibility on dull days or at night. They also ensure that the shower and/or eyewash/facewash are easy to see at all times as recommended in the AS4775.

Item Code	Description
H-TSLNFLP	Tank Shower Lighting for Non-Hazardous Areas
H-TSLZ12	Tank Shower Lighting for Zone 1&2 Areas

Tank Shower Cubical Panels

The GRP cubical panelling is designed to minimise overspray especially when the tank shower is located in an exposed area. These panels are sold and fitted in the factory as a set of 3.

Item Code	Description
H-TSGRP1200	GRP Panels for Tank Shower Cubicles

Shower Sump and Walk-On Grate

The walk-on tank shower panel is made from galvanised steel. Is spring loaded and connected to the panic bar with stainless steel jack chain. When the shower operation panel is depressed, a flow of flushing water starts within one second.

The GRP sump with stainless steel frame fits beneath the tank shower. The sump collects the water and allows it to drain to a single point.

Item Code	Description
H-TSP1200	Walk-on Shower Operation Panel
H-TSSUMP	GRP Sump & Stainless Steel Frame

Shower & Eyewash Proximity Switch

Proximity switches can be fitted to the tank shower. When the shower/eyewash is operated, the proximity switch activates to turn on a local or remote alarm. Ideal for unmanned sites and remote locations.

Item Code	Description
H-STD22KENFLP	Eyewash Proximity Switch Non-Hazardous
H-STD22KNFLP	Shower Proximity Switch Non-Hazardous
H-STD22KEZ12	Eyewash Proximity Switch Zone 1 & 2
H-STD22KZ12	Shower Proximity Switch Zone 1 & 2

Drum Handling & Decanting

TSSBT230 Mobile Dispensing Station

- Safely move 205L drums from vertical to horizontal.
- Genuine single person operation. No forklift required.
- Lockable 3rd wheel for easy manoeuvring.
- Single piece moulded polyethylene with 230L sump.
- Double ratchet straps for extra load security.

Length	Width	Height	Weight	Sump	Max Load
1600mm	740mm	640mm	44kg	230 Litre	300kg

TSSDB4 Poly Racker

Length	Width	Height	Weight	Sump	Max Load
1390mm	1250mm	490mm	50kg	400 Litre	1250kg

TSSDBC Poly Stacker

Length	Width	Height	Weight	Sump	Max Load
1240mm	795mm	490mm	25kg		600kg

- Decant from 205 litre drums in a safe bunded area.
- Huge 400L sump makes recovering spilled liquids easy.
- Seamless design for maximum sump security.
- Racker (base unit) and Stacker sold separately.

TSSSBS Single Drum Cradle

- Very stable cradle for decanting horizontal 205L drums.
- Slightly sloped to allow maximum removal of liquids.
- Made from polyethylene for excellent chemical resistance.
- Can be used in conjunction with spill pallets and Maxitray.
- Single piece rotomoulded construction for extra strength.

Length	Width	Height	Weight	Max Load
730mm	875mm	765mm	10kg	300kg

TSPDDH Poly Drum Dolly

- Ideal for mobile fluid collection and vertical dispensing.
- Avoid spills by taking your drum to the job.
- Collect incidental spills and prevent slip hazard
- *Overall sump height 255mm for ease of loading.
- Sturdy handle and rotating lockable castors.

Length	Width	Height	Weight	Sump	Max Load
725mm	725mm	990mm*	15.5kg	30 Litre	300kg

Poly Drum Funnel

- Perfect solution for waste oil collection point.
- Large stable surface area allows for controlled pouring.
- Drain containers and oil filters before disposal.
- Available with or without the hinged lid.
- Tough polyethylene construction for maximum durability.

TSSDF1 Poly Drum Funnel

Diameter	Height	Weight
610mm	230mm	4kg

Drum Topper

- Prevent corrosion of drums stored outside.
- Locks onto the drum but is easily removed when required.
- Slanted lid prevents buildup of rainwater.
- Made of UV stabilised polyethylene.

Item Code	Description	Size
TSSDL2	Secure Polyethylene 205L Drum Lid	630(dia)x160(H)mm

Drum Grab

- SWL of 1 tonne (AS4991 2004 Lifting devices).
- Genuine single person operation. Attaches in seconds.
- Suitable for use with all steel drums and most plastic drums.
- Can lift drums from and lower to both horizontal and vertical.
- Winner of the New Inventors Judges & Peoples Choice Award.

Item Code	Description	SWL
TSSDGT	Drum Grab Drum Lifting Device	1000kg

Multi Lifter

- Designed to safely move both open and closed top drums.
- Positive lock-on feature leaves the operator to control loading.
- Ideal for loading the Drum Dolly, Overpack and 1-Drum Tray.
- Comes fitted with chain and head ring.
- Safe working load of 500kg.

Item Code	Description	SWL
TSSSPDL	Open & Closed Top Drum Lifter	500kg

Drive-Over Bunding

Collapsible Drive Over Bunding

- Eliminate spill from forklifts caused by rigid bunding.
- Compresses to minimise movement of forklift loads.
- Springs back to shape after vehicle passes.
- Cost-effective D.I.Y retrofit bunding.
- Can be driven over after 24 hours.
- Ideal for bunding across pedestrian and roller doors.
- Constructed from coated PVC and 100% memory foam.
- Compresses to minimise movement of forklift loads.
- Each Drive-over Bunding Kit contains:
220mm x 75mm(H) Bunding
PVC Adhesive
Masonry Anchors
Sikatank Sealant
Aluminium Reinforcing Flatbar
Step-by-Step Instructions

Item Code	Description
TSSDOB10	10 metre Drive-over Bunding Kit
TSSDOB5	5 metre Drive-over Bunding Kit
TSSDOB2	2 metre Drive-over Bunding Kit
TSSDOBC	Corner Section Drive-over Bunding Kit

Portable Wash Bay

- Compliance made cost-effective and easy to use.
- Perfect for mobile vehicle washdown and detailing.
- Folds down to 600x800x350mm
- Foam ends allow for drive through applications.
- Constructed from heavy-duty coated PVC.
- Can be made to any size required.

Item Code	Description	Size	Weight
TSSWPS	Car & Truck Washpad		20kg

- Simply attach to 12v battery and flick the switch.
- Self-contained pump include 2m of hose.
- Battery not included.

Item Code	Description	Flow Rate
TSSBBP	Self-contained Washpad Pump	15L/min

Stormwater Drain Seal

- Cover critical drains and keep spill onsite.
- Designed to be deployed by a single worker.
- Includes hi-vis bag and wall mounted storage hook.
- Adheres to drain surround for maximum seal.
- Wash with soap & water and reuse.
- Manufactured from chemically resistant PVC.

Item Code	Description	Size
TSSDS1	Stormwater Drain Seal	810 x 950mm
TSSDS2	Stormwater Drain Seal	1100 x 1100mm

Flat Drain Guard

- Removes up to 99.8% of hydrocarbons from runoff.
- Prevents solids from entering stormwater.
- Overflow holes prevent stormwater blockage.
- Suits flat stormwater drains up to 1m x 1m.
- Easy D.I.Y installation instructions included.
- Absorbent pockets added for extra protection.

Item Code	Description	Size
TSSF DG	Flat Stormwater Drain Guard	1100 x 1100mm

Flexible Spill Barrier

- Reusable nonabsorbent spill containment barrier.
- Sticky exterior adheres to ground for maximum seal.
- Made of chemically resistant PVC.
- Wash with soap & water to recharge sticky exterior.
- Packed in hi-vis bag and wall mountable hook.
- Joiners available at no additional charge.
- This flexible unit can be shaped to fit your requirement.

Item Code	Description	Size
TSSFB	Flexible Spill Barrier	2m x 70mm(H)

Drip & Storage Trays

TSSBT50

TSSBB25

TSSBB50

TSSTT65

TSSTT100

TSSDTL

TSSTTXS

TSSDTM

1-Drum Round Spill Tray

- Perfect for use with rotary pumps.
- Collect incidental spills and prevent slip hazards.
- Ideal as bunding around waste oil collection points.
- Rotomoulded for extra strength.
- Made from chemical resistant polyethylene.

Item Code	Capacity	Height	Length	Width
TSSBT50	50 Litre	230mm	610mm	610mm

Bench-top Spill Trays

- Designed for benchtop use.
- Perfect for lab applications.
- Spills drain safely to the sump.
- Chemical resistant polyethylene.

Item Code	Capacity	Height	Length	Width
TSSBB25	27.5 Litre	110mm	550mm	550mm
TSSBB50	29 Litre	110mm	715mm	460mm

Drip and Storage Trays

Item Code	Capacity	Height	Length	Width
TSSDTM	20 Litre	100mm	610mm	410mm
TSSDTL	45 Litre	100mm	810mm	610mm
TSSTTS	45 Litre	170mm	630mm	590mm
TSSTT65	65 Litre	150mm	1000mm	550mm
TSSTT100	100 Litre	120mm	1000mm	1000mm

Drip & Storage Trays

TSSGPT1

TSSGPT2

Tuff Storage Trays

- Provides safe, banded storage for small drums and containers.
- Ideal for use with batteries, drums, machine parts, etc.
- Ribbed base design provides additional strength and spill clearance.
- Chemical resistant rotomoulded polyethylene for superior durability.

Item Code	Description	Capacity	Height	Length	Width	Load UDL
TSSGPT1	Medium Tuff Tray	110 Litre	295mm	730mm	730mm	260kg

Drum Overpacks

TSS1237

TSS1220

TSS1230

Salvage Drums and Overpacks

- Approved for use with Packaging Group I, II & III.
- Certified for use as DOT Salvage Drums, 49 CFR 173.3(c)
- Made of high density polyethylene.
- Tool free screw-down closure.
- Gasket lid for positive seal.
- Superior strength with UV inhibitors.
- Nestable for convenient storage.
- Store & ship 25, 60 & 205L drums.
- Ideal weatherproof spill kit container.
- UL 94HB Flammability Rating.
- FDA 21 CFR 177.1520 Food Grade.

Item Code	Capacity (Litre)	Height (mm)	Diameter Top (mm)	Diameter Bottom (mm)	Weight (kg)
TSS1237	360	1098	787	683	21
TSS1230	114	720	570	420	6.3
TSS1220	76	520	520	425	5.8

TSSBT100	100L	980mm	900mm	700mm	18kg

Emergency Information Cabinet

- Store MSDSs and information required by emergency services.
- Lockable latches keyed to L003 Fire Brigade locks.
- Wall mountable and weatherproof.
- Made from zincanneal steel.

Item Code	Height	Width	Depth
BCE1425350	425mm	350mm	100mm
BCE1500600	600mm	500mm	156mm

Temporary Tank & Drum Repair Putty

- Stop leaks from drums, and tanks at the source.
- No surface or putty preparation is required.
- Simply scoop putty out and press over the hole.
- Very adhesive and chemical resistant.
- Effective up to .25 bar (8ft head pressure).
- Adheres to metal, plastic and glass.
- Perfect addition to any Spill Response Kit.
- Buys precious time and saves valuable liquids.

Item Code	Name	Weight
PIU800	Plugitup Putty	800g

Collapsible Cone With Internal LED Light

- Reflective outer and internal LED light with 300 hour run time.
- Lightweight fold-away design makes it a perfect spill kit addition.
- Isolate contaminated spill areas effectively day or night.
- Folds down into sturdy PVC base to a height of only 50mm.

Item Code	Power	Height	Base	Weight
TSS450	2xAAA battery	450mm	245x245mm	1.2kg

Fire Extinguishers

Fire extinguishers are a vital part of any flammable goods storage area. Suitable for:

Class A – Paper, textiles, wood, most plastics and rubber

Class B – Flammable liquids

Class E – Electrically energised equipment

Item Code	Description	Discharge Time	Effective Range
WO282	2.7kg ABE Fire Extinguisher	15 secs	4 metres
WO283	4.5 kg ABE Fire Extinguisher	20 secs	5 metres

Spill Response Signs

X-PSS

X-KIL

X-WLL

When any emergency response is required, reaction time is critical. The longer it takes to find the correct equipment the bigger the problem becomes.

Ensure crucial spill response equipment can be located immediately with this range of signs.

All signs are guaranteed against corrosion or fading for seven years.

Item Code	Description	Size
X-WLL	Metal, "Spill Station" Sign	600x450mm
X-KIL	Metal, Spill Kit Instruction Sign	600x450mm
X-DSL	Metal, Drain Seal Instruction Sign	600x450mm
X-DOBS	Metal, Drive-Over Bunding Sign	600x450mm
X-PSS	Poly, Double Sided "Spill Station" Sign	600x450mm

X-DOBS

X-DSL

Spill Station waste disposal bags are made from polyethylene for additional strength.

Item Code	Description	Size	Quantity
X-CWB/10	Clinical Waste Bag	320x460mm	10
X-TWB/10	Cytotoxic Waste Bag	500x650mm	10
X-AWB/10	Asbestos Waste Bags	900x600mm	10
X-BAT/10	Contaminated Waste Bags	700x560mm	10

TSSNK1 Portable Oil/Water Filter

- Ideal for removing oil from water in remote areas.
- Aluminium dispersal wand with 50mm female camlock fitting.
- Removes up to 99.8% of hydrocarbons at 180L/minute.
- Converts up to 30L of hydrocarbon to a manageable solid.

Item Code	Description	Capacity	Height	Width
TSS1237	Portable Oil/Water Filter Complete	30 Litre	1300mm	500mm
TSSNK1R	Portable Oil/Water Filter Refill	30 Litre	1150mm	500mm

Clearflow Filter Tube

- Removes solids from general urban runoff.
- Ideal for dewatering roadside pits.
- Adaptor fitted with 50mm female camlock.
- 300mm x 2m size for high volume pumpout.

Item Code	Description	Discharge	Effective
CFFT147	Filter Tube	147mm	1000mm
CFFTAK1	147mm Adaptor		
CFFT300	Filter Tube	300mm	2000mm
CFFTAK2	300mm Adaptor		

Dewatering System For Clay Soils

- Removes clay (colloidal) soils from water.
- Reusable outer and disposable inner filter.
- Dispersal wand fitted with 50mm female camlock.
- Quick release flap for inner filter removal.

Item Code	Description	Discharge	Effective
TSSDWS1	Dewatering Bag Complete	2200mm	800mm
TSSDWSR	Inner Filter Replacement	2000mm	720mm

Compact Floating Containment Boom

- Contain spills of oil and fuel on waterways.
- Ideal for rivers, dams and harbours.
- Marine alloy joiners to create required length.
- Made from 900gsm marine boom PVC.
- Complete with grab straps for easy retrieval.
- Packed in carry bag for easy handling.

Item Code	Freeboard	Skirt	Ballast	Weight	Length	Pack Size (mm)
TSSCONT	200mm	250mm	6mm chain	16kg	10m	600x350x450

Hand Protection

Item Code	Description
X-NEO	Chemical Resistant Neoprene Gloves
X-ORG	Oil Resistant PVC Gloves
X-ORG-E	Oil Resistant PVC Gauntlets
X-DLG	Disposable Latex Gloves
X-NDG	Disposable Nitrile Gloves

Eye Protection

Item Code	Description
X-IRG	Safety Glasses
X-GOG	Splash Goggles
X-MES	Face Mask With Eye Shield

Respiratory Protection

Item Code	Description
X-DMV	P2 Mask with Valve
X-HFM	Half-face Mask A-AUS P2 Cartridges

Protective Clothing

Item Code	Description
X-TDO	Disposable Overall
X-DHG	Disposable Clinical Gown
X-PEA	LDPE Disposable Apron

Waste Collection Equipment

Item Code	Description
X-SCOOP	Dustpan & Brush
X-BRM	Hard Bristle Yard Broom
X-HSH	Sparkproof Shovel

PPE Sleeve

Ensure your personal protection equipment and material safety data sheets are easy to find by including the PPE Sleeve in your Spill Kit.

Item Code	Description
X-PPS	PPE/MSDS Sleeve

Workplace Safety

For All Environments

Chemical spills create immediate dangers to personnel, assets and the environment. Workplace Health & Safety and Environment Protection legislation both require that due diligence is exercised and the correct equipment is in place to minimise the risk of harm to employees and the environment.

Since 1983, Spill Station Australia has been developing a range of workplace protection solutions to not only address the immediate consequences of a spill on staff and the ecosystem but to put measures in place to avoid them from occurring.

Our new range of unique Safety Showers are designed to operate in all climates and workplaces including mining, offshore, laboratory and factory floor.

This global approach to the provision of health, safety and environment protection equipment is the most effective method of achieving sustainable outcomes across all sectors of Australian Industry.
