**GATOR**  
SAFETY FOOTWEAR

## WHO WE ARE

**Trading Downunder** is the exclusive importer and manufacturer of leading brands of safety footwear sold throughout Australia and New Zealand. Founded in 2002 Trading Downunder was the first to bring to the market *Safety with Style* with innovative European designed footwear.

Safety footwear distributed by Trading Downunder incorporates the latest safety technology and materials, ensuring maximum comfort, style and durability. All safety shoes and boots are certified to **Australian Standards AS 2210.3:2019**.

The **Gator Safety** range features European inspired safety footwear catering to special industries that blend the latest technology with style. The Gator Polar has become the preferred choice for workers in cold stores, sub-zero work environments and in winter environments where safety boots are required.

The **Puma Safety** range combines high performance with safety and comfort, whilst allowing wearers to enjoy the superb styling, which is synonymous with the Puma brand. This range includes safety shoes with running technology, innovative waterproof boots and lightweight safety footwear.

**Gaston Mille** is a French manufacturer well known for its expertise in safety footwear since 1912. The Gaston Mille Safety Overshoe is a world patented slip on safety shoe to go straight over visitors' shoes. This product is effective, practical, economical, hygienic and easy to use.

# impulse range

## ANTI-FATIGUE TECHNOLOGY

The Impulse range is the first safety footwear line with a double foamed, extremely lightweight dual impulse midsole. The Impulse.Foam has anti-fatigue technology for maximum cushioning. Specifically designed for workers on their feet all day.

### IMPULSE.FOAM® ANTI-FATIGUE TECHNOLOGY

A revolution in performance safety footwear. The innovative IMPULSE.FOAM anti-fatigue midsole reacts to each step with an energy impulse. Thereby the IMPULSE.FOAM not only returns the energy actively, but also provides maximum cushioning, excellent stability and long-lasting comfort.

**SIZES AVAILABLE:** 36 - 40 in women's last | 41 - 47 in men's last

ANTI-FATIGUE TECHNOLOGY

COA.TEX®  
MEMBRANE

#### GC3741 - EVERGLADES black/olive

- Protection:** Fibreglass Toe Cap 200j impact protection.  
**Plus:** **Electrical Hazard rated** - ASTM F2413 Standard (USA). Metal free. Comfortably padded collar and closed dust tongue, rubber abrasion protection in the toe area.  
**Upper:** Smooth leather with abrasion-resistant textile inserts.  
**Lining:** Functional lining with breathable and **waterproof COA.TEX membrane**.  
**Insole:** Comfit Air insoles.  
**Sole:** Rubber outsole with Torsion Control System, 300°C heat resistant, SRC rated slip resistant, oil resistant and non-marking. IMPULSE.FOAM anti-fatigue technology.  
**Sizes:** **Men's** Euro 41 - 47 (UK/AU 7 - 12)  
**Women's** Euro 36 - 40 (US Women 5 - 8.5; UK/AU 3 - 6.5)

ANTI-FATIGUE TECHNOLOGY

COA.TEX®  
MEMBRANE

#### GATOR FOOTWEAR NON-SAFETY

#### GE5869 - EXPLORER brown

- Protection:** Soft toe.  
**Plus:** Comfortably padded collar and closed dust tongue, rubber abrasion protection in the toe area.  
**Upper:** High quality waxed full leather.  
**Lining:** Functional lining with breathable and **waterproof COA.TEX membrane**.  
**Insole:** Comfit Air insoles.  
**Sole:** Rubber outsole with Torsion Control System, 300°C heat resistant, SRC rated slip resistant, oil resistant and non-marking. IMPULSE.FOAM midsole made of two different densities offering optimal cushioning, stability and comfort.  
**Sizes:** **Men's** Euro 41 - 47 (UK/AU 7 - 12)  
**Women's** Euro 36 - 40 (US Women 5 - 8.5; UK/AU 3 - 6.5)

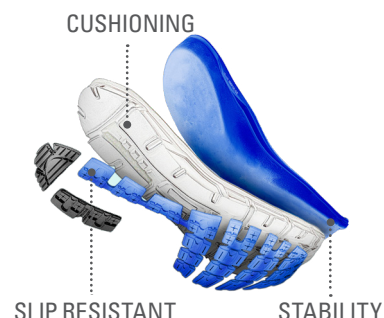

## DUAL IMPULSE

This advanced sole concept is made of two individual layers of Impulse foam with 300°C heat resistant and slip resistant rubber outsole.

## G12309 - RECOIL CAMO black/olive

- Protection:** Fibreglass Toe Cap 200j impact protection.  
**Plus:** Anti-static ESD Rated and extremely lightweight. **Quickfit laces** and **spare pair of standard laces** supplied. Vegan (no animal products have been used).  
**Upper:** Durable Nylon material with sandwich mesh and FITFRAME (seamlessly attached reinforcements).  
**Lining:** Breathable functional lining.  
**Insole:** Comfit Air insoles.  
**Sole:** Rubber outsole with Torsion Control System, 300°C heat resistant, SRC rated slip resistant, oil resistant and non-marking. IMPULSE.FOAM midsole made of two different densities offering optimal cushioning, stability and comfort.
- Sizes:** **Euro 39 - 47 (UK/AU 6 - 12)**

Certified to Australian Standards AS 2210.3:2019

**IMPULSE.FOAM®**  
ANTI-FATIGUE TECHNOLOGY

## G12011 - REBOUND black/silver

- Protection:** Fibreglass Toe Cap 200j impact protection.  
**Plus:** Anti-static ESD Rated and extremely lightweight. Reflective eyelets and rear tab.  
**Upper:** Water repellent full grain leather upper.  
**Lining:** Breathable functional lining.  
**Insole:** Comfit Air insoles.  
**Sole:** Rubber outsole with Torsion Control System, 300°C heat resistant, SRC rated slip resistant, oil resistant and non-marking. IMPULSE.FOAM midsole made of two different densities offering optimal cushioning, stability and comfort.
- Sizes:** **Euro 39 - 47 (UK/AU 6 - 12)**

Certified to Australian Standards AS 2210.3:2019

# cool room / freezer boot

## 100% WATERPROOF

The Gator Polar is a cool room/freezer boot that can be worn in temperatures as low as -40°C (subject to time and conditions). It is flexible, comfortable, durable, slip resistant, acid and oil resistant and anti-static.

A side zip with webbing ensures easy fitting and removal of the boots and the waterproof membrane helps keep feet dry in the most demanding conditions.

ZIP SIDE

ZIP SIDE

### GP2404 - POLAR black

**Protection:** Composite Toe Cap 200j impact protection and composite anti-perforation midsole.  
Bump cap protection with ankle support.  
(Size 14UK has a steel toe cap).

**Plus:** YKK spiral zip side with webbing.

**Upper:** Water repellent full grain leather upper with **full waterproof membrane**.

**Lining:** 600g breathable Thinsulate insulated lining.

**Insole:** PU/Memory foam anti-fatigue and anti-static insole.

**Sole:** 300°C heat resistant and SRC rated slip resistant rubber sole.

**Sizes:** **UK/AU 6 - 14** (full sizes only)

Certified to Australian Standards AS 2210.3:2019

# welder / metal fabrication boot

## SHOCK RESISTANT

The Gator ProWeld is a shock resistant safety boot specifically designed for workers in the welding and metal fabrication industries. It incorporates a full grain, water repellent leather upper, combined with **Kevlar flame resistant stitching**. A quick release fastener ensures easy fitting and removal as well as eliminating slag collection areas that may have the potential to capture sparks and metal.

QUICK RELEASE FASTENER

### GW5062 - PROWELD black

Protection: Composite Toe Cap 200j impact protection and composite anti-perforation midsole.

Plus: **Electrical Hazard rated** - ASTM F2413 Standard (USA).

Quick release fastener. No slag collection areas.

Upper: Water repellent full grain leather upper with **kevlar flame resistant stitching**.

Lining: Thinsulate heat insulated lining.

Sole: 300°C heat resistant and SRC rated slip resistant, dual density shock absorbing rubber sole.

Sizes: **UK/AU 6 - 13** (full sizes only)

Certified to Australian Standards AS 2210.3:2019

# special features

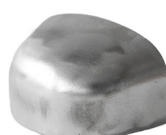

## Composite toe cap

Protective toe cap of synthetic material, lighter than a common steel toe cap yet providing the same impact protection of 200 joules. Non-magnetic and thermally insulating.

## Fibreglass toe cap

Fibreglass toe cap, lighter than a common steel toe cap, yet providing the same impact protection of 200 joules. It also provides greater toe space than traditional toe caps.

## Aluminium toe cap

Protective aluminium toe cap, lighter than a common steel toe cap, yet providing the same impact protection of 200 joules.

## RECYCLED MATERIALS USED

## Recycled materials used

These products incorporate recycled and sustainable materials in the construction of the footwear.

## Rubber Sole Motion Cloud Range

300°C heat resistant rubber sole made of a unique waffle pattern providing SRC rated slip resistance, with POWER PLATE torsion control element. IMPULSE.FOAM midsole made of two different densities offering optimal cushioning, stability and comfort.

## Rubber Sole Urban Effect

Rubber sole 300°C heat resistant, SRC rated slip resistant with rotation point. URBAN EFFECT Triple density two-layered midsole of EVA. EFFECT.FOAM for excellent cushioning and up to 60% energy return and 47% less impact on bones and joints.

## Rubber Sole Motion Range

Rubber outsole with Torsion Control System, 300°C heat resistant, SRC rated slip resistant, oil resistant and non-marking. IMPULSE.FOAM midsole made of two different densities offering optimal cushioning, stability and comfort.

## Rubber Sole Urban Range

300°C heat resistant, SRC rated slip resistant HRO rubber outsole with its differently shaped profile elements ensures optimal mobility and safe contact with the ground.

## TPU Sole Metro

SRC rated slip resistant, TPU sole construction for flexibility and reduction of weight. The TPU Torsion Control element is built into the waist of the sole, providing greater support and stability. Made in Italy.

## Rubber Sole Scuff Cap Range

300°C heat resistant and SRC rated slip resistant rubber outsole with mud release profile to give optimal performance in harsh conditions. Electrical Hazard rated to ASTM F2413 Standard (USA).

## Rubber Sole Miss Safety Range

300°C heat resistant anti-slip rubber sole with TPU torsion control and EVA midsole. Puma gelCell embedded in the heel for superior cushioning and comfort.

## Flexible Anti-Perforation midsole

Extremely flexible anti-perforation midsole made of ceramic coated fibres, light, antimagnetic, thermally insulating.

## BreathActive

Multi-layer functional lining for increased breathability through micro-channel system, rapid absorption and release of moisture.

## Puma Power Plate

The POWER PLATE supports the stability of the entire foot, increases the energy return effect of the IMPULSE.FOAM® midsole and supports with every step the natural rolling movement of the foot.

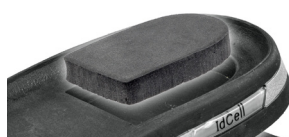

## Anti-fatigue technology

The innovative IMPULSE.FOAM® anti-fatigue midsole reacts to each step with an energy impulse. It provides maximum cushioning, excellent stability and long lasting comfort.

## EFFECT.FOAM

Provides excellent cushioning, up to 60% energy return and 47% less impact on bones and joints providing all day comfort and stability.

## PUMA idCell

The idCell element embedded in the heel area consists of a very soft sponge EVA midsole which absorbs impacts and shocks when the heel strikes the ground.

## PUMA EVA cushioning pad

The EVA cushioning pad integrated in the heel area ensures optimum shock absorption during ground contact.

## PUMA gelCELL

Soft cushioning system directly embedded in the heel, providing essential shock absorption plus energy return.

## Evercushion® Custom Fit

The anatomically shaped insole cushions with every step. The specially coordinated arch support enables the foot to be positioned naturally in the shoe and stimulates the muscles when walking.

## Evercushion® BA

Puma evercushion® BA has an open cell foam made of polyurethane which transports moisture away from the foot combined with water-absorbing and antibacterial covered fabric for a pleasant foot climate.

## Evercushion® pro

Puma evercushion® pro is a high performance footbed with underfoot wave structure designed to give optimum cushioning at the point of contact giving maximum relief to high compression zones.

## Evercushion® BA PLUS

Puma evercushion® BA PLUS insole is made of 2 layers of foamed polyurethane in different densities ensuring maximum cushioning.

## Evercushion® Plus

Puma evercushion® soft PU with Poron inserts, anti-static and anti-fatigue.

# puma safety range

Puma® is respected as one of the major sports and lifestyle brands in the world and their safety footwear range incorporates high performance, safety and comfort, whilst allowing wearers to enjoy the superb styling which is synonymous with the Puma® brand.

All Puma® safety products sold in Australia and New Zealand are manufactured, tested and certified to Australian Standards AS 2210.3:2019.

Vegan (no animal products have been used).
- Upper:** Microfibre with highly breathable Sandwich-Mesh.
- Lining:** BreathActive functional lining.
- Insole:** Evercushion® BA.
- Sole:** Rubber outsole with Torsion Control System, 300°C heat resistant, SRC rated slip resistant, oil resistant and non-marking. IMPULSE.FOAM anti-fatigue technology.
- Sizes:** **Euro 39 - 48 (UK/AU 6 - 13)**

Certified to Australian Standards AS 2210.3:2019

## Flexible Anti-Perforation midsole

The Pace 2.0 contains an FAP (Flexible Anti-Perforation midsole) for increased protection against penetration of sharp objects through the sole.

**IMPULSE.FOAM®**  
**ACTIVE ENERGY RETURN**  
UP TO 55%

## Anti-fatigue Technology

A revolution in performance safety footwear. The innovative IMPULSE.FOAM anti-fatigue midsole reacts to each step with an energy impulse. Thereby the IMPULSE.FOAM not only returns the energy actively, but also provides maximum cushioning, excellent stability and long-lasting comfort.

643837 - **RELAY** black

**metal  
FREE**

- Protection:** Fibreglass Toe Cap 200j impact protection.
- Plus:** Anti-static ESD rated.  
**Quickfit laces and spare pair of standard laces supplied.**  
Vegan (no animal products have been used).
- Upper:** Nylon upper with Fuse.tec elements.
- Lining:** BreathActive functional lining.
- Insole:** Evercushion® BA.
- Sole:** Rubber outsole with Torsion Control System, 300°C heat resistant, SRC rated slip resistant, oil resistant and non-marking. IMPULSE.FOAM anti-fatigue technology.

Certified to Australian Standards AS 2210.3:2019

100% WATERPROOF | ZIP SIDED

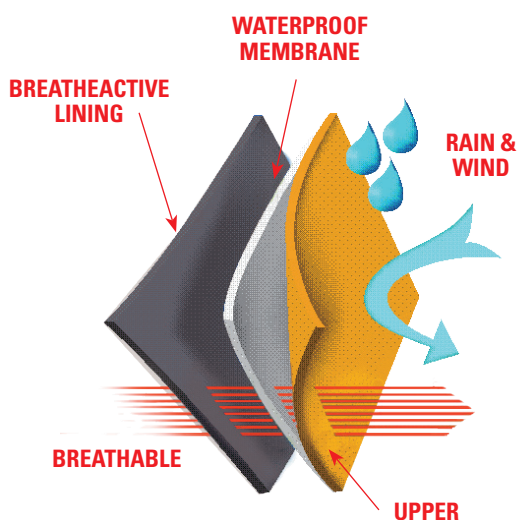

A TRULY **WATERPROOF** ZIPSIDER  
WITH WATERPROOF MEMBRANE

Electrical hazard rated to  
ASTM F2413 Standard (USA)

## FULL WATERPROOF MEMBRANE

**WATERPROOF:** A waterproof and breathable membrane is inside the upper of the boot just behind the leather. The holes in the membrane are so small that sweat vapour can pass out, but a water molecule cannot pass in. There are millions of holes in every square cm of the membrane.

A waterproof membrane is not just waterproof but also breathable.

FEATURED IN THE  
**CONQUEST AND SIERRA  
NEVADA STYLES.**

The fully enclosed membrane  
protects the whole boot  
including the stitching and  
tongue.

# waterproof safety boots

The ultimate safety boot for contractor, tradie or simply for those who need a tough work boot for harsh working environments. The scuff cap range is Electrical Hazard rated with some styles fully waterproof.

## Australian Standards

Puma Safety and Gator Safety footwear sold by Trading Downunder meet and are certified to AS 2210.3:2019, the Australian standard for occupational protective footwear.

The BSI Benchmark Product Certification number is shown inside the tongue of each product. This indicates conformity and testing of the product to the Australian standard.

## Warranty

All of our Footwear carries a manufacturer's warranty for a period of 6 MONTHS FROM DATE OF PURCHASE against defective workmanship / materials if worn under normal conditions for the purpose intended. This warranty will be void if the product has been subjected to abuse or excessive wear and tear including exposure to cement, lime, chemicals, water or heat, if the product was not designed to be worn in those conditions.

All safety footwear is designed to be worn securely fastened. Wearing safety footwear unlaced or unzipped may result in damage or premature wear to the lining and waterproof membrane, particularly in the heel area as a result of the foot not being secured properly in the boot. Please be aware that such damage and wear to a product as a result of misuse is not covered under manufacturer's defect warranty. As a condition of warranty you must present evidence of the date of purchase in the event of any claim. This warranty is offered in addition to, and does not affect statutory consumer rights.

A product notice is enclosed inside the box setting out product care and warranty.

# safety footwear glossary

## Composite Toe Cap

Protective toe cap of synthetic material, lighter than a common steel toe cap yet providing the same protection of 200 joules. Non-magnetic and thermally insulating.

## Fibreglass Toe Cap

Fibreglass toe cap, lighter than a common steel toe cap, yet providing the same impact protection of 200 joules. It also provides greater toe space than traditional toe caps.

## Aluminium Toe Cap

Protective aluminium toe cap, lighter than a common steel toe cap, yet providing the same impact protection of 200 joules.

## Recycled materials used

These products incorporate recycled and sustainable materials in the construction of the footwear.

## Non-metallic

By using a composite toe cap and non metal eyelets, the footwear is both airport friendly and lighter in weight, yet still providing 200j impact protection and conforming to the AS 2210.3:2019 safety standards.

## Electrical Hazard rated according to ASTM standard F2413 (USA)

Provides much greater protection against electrical shock for those operating in higher risk work environments.

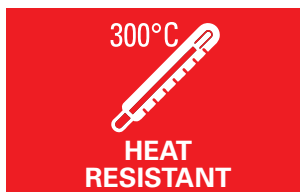

## Anti-static

These styles are constructed to reduce the accumulation of static electricity by conducting the body charge through the footwear to the ground.

## Anti-static ESD Rated

Electrostatic Discharge (ESD) Footwear is used in manufacturing processes or work environments to prevent the build up of electrostatic charge.

## 300°C heat resistant sole

The rubber outsole is heat resistant up to 300°C.

## Slip resistant sole

Signifies that the outsole is slip resistant on most surfaces.

## Pierce resistant

These styles are equipped with a flexible anti-perforation midsole (FAP) which increases protection against penetration of sharp objects through the sole.

## Breathable

Breathable footwear protects against overheating by maintaining an even foot temperature during work. Your feet stay cooler and feel less tired.

## Water repellent

The leather uppers are water repellent and water resistant but the footwear is not fully waterproof.

## Waterproof

Signifies that the footwear is equipped with a special membrane to make it fully waterproof yet remaining breathable.

## Vegan

Does not contain animal materials, nor have any animal by-products or components that were tested on animals.

## Thermal Insulation

600g Thinsulate insulated lining. Keeps the feet warm in temperatures as low as -40°C (subject to time and conditions).

# Puma Safety

Trading Downunder supports distributors with marketing and point of sale material such as slat wall banners, product shelves, posters, product catalogues, display stands and other branding materials.

For online, website banners can be created for you and your store details may be added to the “Where to buy” section of our website. Please ask our marketing team and sales representatives for opportunities to create a better branding experience in your store.

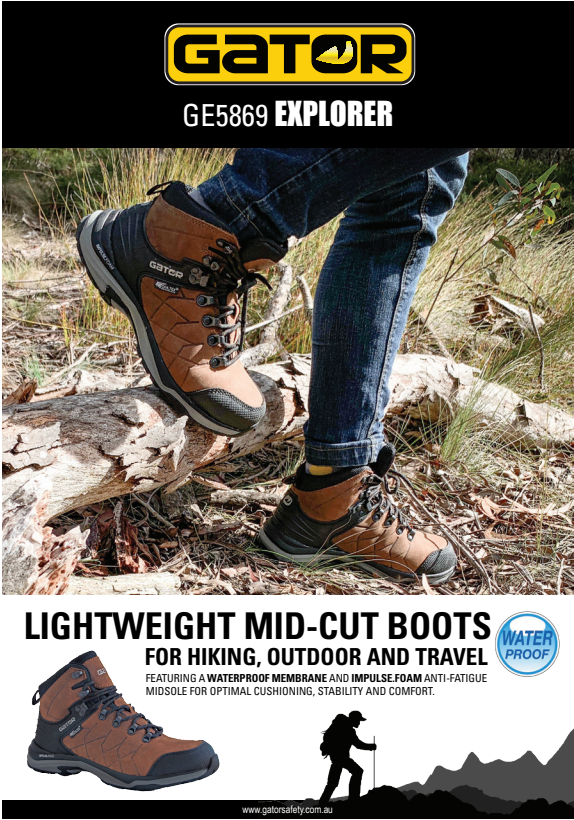

TOP: Hanging posters and Puma Safety signs in the area where the shoes are displayed.

RIGHT: Slat wall banner with Puma Safety shelves.

BOTTOM: Window signage with Puma Safety poster.

LEFT: Display stand with shelves and silent sellers.

TOP & BOTTOM: Samples of Gator Safety Posters
